

## BUG REPORT

<b>Project</b>	LifeRay Testing Exercise	<b>Reporter</b>	Jorge Martín
<b>Issue</b>	Bug	<b>Priority</b>	↓ Low
<b>Summary</b>	Mandatory action of Date input does not work properly		
<b>Component</b>	Form - Date Input		
<b>Version</b>	X.X.X		
<b>Description</b>	As a mandatory field, when the Date Input has interaction but is not filled it has to be an error action that includes styles ( background and border) and a red error message with the text “The field is required”. When submit is clicked this action is working properly but it fails when the interaction does not include a click on that button.		
<b>URL</b>	<a href="https://forms.liferay.com/web/forms/shared/-/form/122548">https://forms.liferay.com/web/forms/shared/-/form/122548</a>		
<b>Steps</b>	<ol style="list-style-type: none"> <li>1. Enter URL</li> <li>2. Interact with Date Input</li> <li>3. Keep input unfilled</li> <li>4. Clic outside / Clic other field</li> </ol>		
<b>Expected Result</b>	<p>An error message appears. Styles colors turn error. See below:</p>  <p>The screenshot shows a date input field with the label "What is the date of your birth? *". The input field is empty and has a red border. Below the field, the text "This field is required." is displayed in red.</p>		
<b>Current Result</b>	<p>There are no mandatory actions in field. See below:</p>  <p>The screenshot shows a form with three required fields, each marked with a red asterisk: "What is your name? *", "What is the date of your birth? *", and "Why did you join the testing area? *". The first two fields are empty and have red borders. The third field is a large text area, also empty and with a red border. A blue "Submit" button is located at the bottom right of the form. A blue circle highlights the date input field in the top right corner.</p>		
<b>Environment</b>	Web (Chrome 95.0.4638)
